

finest long term care

NHC Tullahoma

Since its opening just over a year ago, NHC Tullahoma has already established itself as a high quality provider of exceptional healthcare in this community. The key to its superior service, says NHC Tullahoma administrator Jaine Colley, is its comprehensive and compassionate approach to care, from hospital to home.

“At NHC, providing care that respects the individual while promoting recovery and well-being through independence is our goal,” Colley said. “We want to meet all the needs of our patients and their families.”

NHC Tullahoma opened its state-of-the-art center in 2013, and has already served hundreds of patients from in and around the Tullahoma area. They offer a variety of services across the senior care

spectrum, from rehabilitative care — both physical and occupational — to skilled nursing, assisted living, respite care and homecare services.

NHC offers an array of amenities in an enjoyable, relaxed atmosphere that includes a barber shop and beauty salon; recreational activities to promote wellness and exercise; and special events including movies, group outings and holiday festivities.

“The team at NHC Tullahoma is so excited to be named Tullahoma’s Finest Long Term Care Center for 2015,” Colley said, “and we are thankful for the welcome and support we’ve received from the Tullahoma community.”
